DATELINE RESOURCES

Update on US Court Proceedings

Dateline Resources Limited (ASX: DTR, OTCQB: DTREF, FSE: YE1) (Dateline or the Company) advises that the District Court judge that ordered the August 2026 preliminary injunction (subject of appeal) has denied the stay applications by the Company and the US Government.

Both the Company and the US Government have appealed the injunction, and both sought the stay and are now considering next steps. This includes seeking a stay from the Ninth Circuit Court of Appeals, which considers the application afresh. The appeal of the injunction has already commenced and is proceeding in parallel.

The Company's position remains that the Plan of Operations approved by the Bureau of Land Management in 1985 constitutes a valid existing right that survived the creation of the Mojave National Preserve, as recognised by the National Park Service in 1995, 2024 and again in April 2025.

The Company will update the market as the case progresses.

About Dateline Resources Limited

Dateline Resources Limited (ASX: DTR, OTCQB: DTREF, FSE: YE1) is an Australian company focused on mining and exploration in North America. The Company owns 100% of the Colosseum Gold-REE Project in California.

The Colosseum Gold Mine is located in the Walker Lane Trend in East San Bernardino County, California and is located 10km north of Mountain Pass rare earth mine. A gold Bankable Feasibility Study was completed on the project in May 2026.

In March 2026, Dateline consolidated the Music Valley Heavy Rare Earth Project in Riverside and San Bernardino Counties, California. The region has known HREE mineralisation from USGS rock chip sampling, with recent mapping and sampling identifying highly anomalous grades within the targeted geological unit.

Dateline also owns the high-grade Argos Strontium Project, also located in San Bernardino County, California. Argos is reportedly the largest strontium deposit in the U.S. with previous celestite production grading 95%+ $SrSO_4$.
